

Our Objectives

Business

To create through the planning system an environment that makes it attractive for micro and small businesses and shops to locate and flourish in the area

Community

To protect and enhance local amenities which provide a community focus

To encourage opportunities for all generations to participate in a range of educational, sporting and leisure activities

To ensure all residents have easy access to community facilities and community green, open spaces for leisure and recreation

Environment

To protect and enhance the high quality and distinctive rural landscape for present and future generations

To maintain separation between local villages, avoiding the creep of urban sprawl

To protect the distinctive views and visual connectivity with the surrounding countryside and heritage assets

To protect and enhance green spaces

To protect the biodiversity of our local flora and fauna and enhance habitats, ecological corridors and sites of special interest
